

Get started

Installation instructions

1. Download and install ZXPInstaller from zxpinstaller.com.
2. After opening ZXPInstaller, drag the file `Extract-FX.zxp` into the program.

Uninstall Instructions

1. Go to your Premiere extensions folder at the following path:
 - Windows: `C:/Program Files (x86)/Common Files/Adobe/CEP/extensions;`
 - MacOS: `/Library/Application Support/Adobe/CEP/extensions`
2. Delete the folder `space.therichard.ExtractFX`

Help & troubleshooting

If any errors occur: click the `?`-button in the plugin to view instructions and common problems. Bugs and other issues can be sent to `support@therichard.space`.
